PROFILE

My name is Seema Qoronfleh, and I have been attending Michigan Islamic Academy for all of my High School Experience. I am a to be graduate, and I hope to pursue my dream in Special Education. I have a strong love towards children, and the thought of helping them is my long life goal. Children are the most innocent and vulnerable, and they need much care. I believe I can give that love, care, and devotion to children through Special Education and want to start my own program to instal in schools. I am a determined and self motivated individual.

ACTIVITIES

Student Government Organization (SGO) (2014-2015):

SGO is an organization that was made for the students by the students. In the SGO we organize and create events for the students to they are able to have a fun school year. We also raise money to send to different reliefs and countries in need such as Syria, Palesntine, and many countries in Africa. We help out with the school and their events in order to

Model United Nations (MUN) (2011-2015):

MUN is a simulation of UN conferences for high school students. Students learn to take a position and debate certain topics. We learn how to come up with solutions and compromise with other parties, teaching us patience and perseverance. MUN also teaches cooperation between delegates. I am currently the president of MUN. It has taught me how to be a leader and how to be more organized.

VOLUNTEER EXPERIENCE

Atria Senior Living Home:

Atria senior living home is located in Ann Arbor Michigan close to my school. It is a home for the elderly with memory needs. They help make the residents feel loves at home especially if they have no family around. I would go almost everyday after school and talk to the elders for hours before I had to leave. I love talking with the elderly because they have the most amazing stories to tell and to learn from.

Michigan Islamic Academy:

At my school I have worked and helped all with many people. I helped the SGO many times with events and keeping things under control, like at Fundraising dinners with

babysitting, clean up, and queuing up performances. Volunteering for my school brought me close to it and taught me a lot about how hard my school works to give us good education.

Detroit Soup Kitchen:

The soup kitchen in Detroit was held at the ICD, and I was given the opportunity to take the time to volunteer packaging food, as well as distribute it among many elders, youth, and children in need.

EDUCATION

Michigan Islamic Academy (2011-2015)

SKILLS

General:

I am a hard working, ambitious, and have good organizational skills. I work great with others and specially children, and I am also bilingual. I have great leadership qualities as well, for example I am the President of Model United Nations. I take responsibility as one of my top priorities.
